Backend developer with around 7 years of Node.js and over 5 years of TypeScript, mostly on regulated or data-heavy products. At Bitpanda I owned the crypto address book and migrated backend functionality from multiple AWS Lambda handlers into a GraphQL API. Earlier: React and Node product delivery, integrations, and a Java-to-NestJS migration at RWE using Azure-hosted environments and CI/CD pipelines.

65% API response improvement

45→12m RWE export pipeline

Work experience

MOST RECENT FIRST

Sep 2025 – Jun 2026	Bitpanda Senior Backend Developer - Owned the crypto address book for a bank-facing digital-asset custody platform: API and data-model design, validation, integrations, tests, and AWS production delivery. - Migrated backend functionality from multiple AWS Lambda handlers into a GraphQL API; built service authentication and backend test coverage with Fastify and TypeScript.	AT
Aug 2024 – Jun 2025	ImmoScout24 Full Stack Developer - Integrated Iterable marketing automation with Node.js for lifecycle messaging, within release and production-safety constraints. - Shipped search, listing, and SEO improvements across a mature AWS and MongoDB platform with unit, integration, and E2E coverage.	AT
Sep 2022 – Jul 2024	RWE Full Stack Developer - Migrated legacy Java components incrementally to NestJS microservices in Azure-hosted environments, using CI/CD plus integration and E2E coverage to reduce regression risk. - Profiled MongoDB flows serving 15,000+ daily queries, improved API responses by 65%, and cut exports from 45 to 12 minutes with Worker Pools.	DE
EARLIER EXPERIENCE		
Aug 2021 – Aug 2022	Freelance · Contract projects Short freelance client projects, typically two to five months each, between long-term roles.	RO
Sep 2019 – Jul 2021	Endava · Full Stack Developer Shipped TypeScript checkout support for Klarna and card payments; built a Node.js, S3, and Lambda pipeline processing 2,000+ documents daily.	RO
Jul 2018 – Sep 2019	WIP Romania · Full Stack Developer Built a MeteorJS and React wallet covering deposits, withdrawals, balances, and reliable real-time transaction updates over WebSockets.	RO
Oct 2013 – Mar 2015	DeverSoft · Web Developer Developed JavaScript and Java features for restaurant staff, with WebSocket updates for orders, tables, and kitchen workflows.	RO

Technical skills

BACKEND	Node.js, TypeScript, Fastify, NestJS, GraphQL, REST APIs, OpenAPI / Swagger, microservices, event-driven systems
FRONTEND	React, Redux, TypeScript UI, SEO-sensitive delivery
DATA & CLOUD	PostgreSQL, MongoDB, Redis, query profiling, Worker Pools, AWS, Lambda, Azure, Docker, CI/CD
QUALITY & DOMAIN	integration testing, E2E testing, service authentication, third-party integrations, payments, digital-asset custody

EDUCATION	BS Computer Science, 2014 - 2018 · Babeş-Bolyai University · Cluj-Napoca
LANGUAGES	Romanian · Native · English · C1 fluent
