Senior backend engineer with around 7 years of Node.js and over 5 years of TypeScript across regulated fintech and data-heavy products. Owned Bitpanda's bank-facing crypto address-book backend from design through AWS production. Earlier work includes payment and wallet flows, NestJS microservice migration, and high-volume Node.js optimization.

~7y Commercial Node.js

65% API response improvement

45→12m RWE export pipeline

Work experience

MOST RECENT FIRST

Sep 2025 - Jun 2026	Bitpanda Senior Backend Developer	AT
	- Owned the crypto address-book backend for bank-facing digital-asset custody: API and data-model design, validation, integrations, tests, and AWS production delivery. - Strengthened service authentication and introduced backend test patterns adopted by the team, using Fastify, GraphQL, TypeScript, and AWS serverless.	
Aug 2024 - Jun 2025	ImmoScout24 Full Stack Developer	AT
	- Integrated Iterable into Node.js lifecycle messaging within established release and production-safety constraints. - Shipped search, listing, and SEO improvements across a mature AWS and MongoDB platform with unit, integration, and E2E coverage.	
Sep 2022 - Jul 2024	RWE Full Stack Developer	DE
	- Migrated legacy Java components incrementally to NestJS microservices, adding integration and E2E coverage to reduce regression risk. - Profiled MongoDB flows serving 15,000+ daily queries, improved API responses by 65%, and cut exports from 45 to 12 minutes with Worker Pools.	
EARLIER EXPERIENCE		
Aug 2021 - Aug 2022	Independent · Projects & Professional Development	RO
	Worked on independent software projects and professional development before returning to long-term product work at RWE.	
Sep 2019 - Jul 2021	Endava · Full Stack Developer	RO
	Shipped TypeScript checkout support for Klarna and card payments; built a Node.js, S3, and Lambda pipeline processing 2,000+ documents daily.	
Jul 2018 - Sep 2019	WIP Romania · Full Stack Developer	RO
	Built a MeteorJS and React wallet covering deposits, withdrawals, balances, and reliable real-time transaction updates over WebSockets.	
Oct 2013 - Mar 2015	DeverSoft · Web Developer	RO
	Developed JavaScript and Java features for restaurant staff, with WebSocket updates for orders, tables, and kitchen workflows.	

Technical skills

BACKEND	Node.js, TypeScript, Fastify, NestJS, GraphQL, REST APIs, microservices, distributed systems, event-driven systems
DATA & PERFORMANCE	PostgreSQL, MongoDB, Redis, schema design, indexing, query profiling, Worker Pools
CLOUD & DELIVERY	AWS, Lambda, serverless, Docker, CI/CD
QUALITY & DOMAIN	integration testing, E2E testing, service authentication, third-party integrations, payments, digital-asset custody
